Rickett's Livestock Letter

Kansas City Stock Yards, Sept. 12.—Almost one-half a billion dollars in cattle come in last week, because of the extension of the shipping season, and there was also a record of 2,000,000 cattle being shipped at eastern stock yards and feeders first of the week. Killing grades just now are not many, but stockers and feeders hold more of them. The supply today is about equal, market steady to 10 cents above the best grades selling about 10 cents. About 200 cars left the Panhandle and New Mexico week ending, containing wool, mutton and mops at \$7.00 to \$8.00 per head, fat lambs up to \$3.50, Colorado and a good deal including a strong lot of Moore & Wolf feeders from Cimarron, 1048 pounds at \$1.75, and some plain killers at 80-100. The yards were full of colts, too, buyers who paid up to \$8.25 for ready feeders.

Sheep sales today, \$7.00 to 18.50, and feeding ewes at \$6.75. Provisions have not gone far the sheepmen from every state.

Hogs sold steady to order buyers, who bought a good many light hogs at \$16.80 to \$11.00, and medium weights up to \$11.00. Provisions stopped at \$14.50 for old hogs, their purchases about 100, lower both of sales, \$19.50 to \$10.50. Top price at other Missouri river markets today is \$16.00, the strong demand from order buyers, on top of the weaker demand, raising the price here up. Receipts are liberal for the season, but demand continues extraordinary, and for the present the market looks safe.

J. A. RICKETT.

Cattle Scourge Breaks Out in the Philippines

Mandaluyong, Sept. 12.—Bubonic plague, a cattle scourge common in the tropics, has assumed the proportions of a serious epidemic in the Philippines, causing the deaths of hundreds of work animals and cattle.

Governor-General Harrison has called upon every department of the regular government to cooperate in checking the disease, which is a difficult matter because there are practically no fences in the Philippine country. It has been decided to establish a laboratory for the manufacture of anti-rinderpest serum, increase the force of veterinarians and build more immunization stations.

The constabulary troops will be concentrated in one province at a time and thus work to control the epidemic. In 1887 the worst of the epidemic occurred and it was estimated that 30 per cent of the animals on the islands died. In 1903 the disease killed 35 per cent of the animals.

This year the disease thus far has claimed only about six-tenths of one per cent.

Sheep and lamb receipts were 9,500 head mostly from Utah, Arizona and Colorado. The top price was 10 cents lower than close of last week, as \$10.00, but fleeces were well today. Other Utah lambs, beside the top lamb, sold at \$10.75 and \$10.85. Colorado lambs brought the top, \$10.80, and Arizona brought \$10.35. As usual, mutton was light, but there was a strong demand for the feeders thrown out at \$16.25, being the common price for the Utes, and \$10 for the Arizonans. Fat ewes sold at \$7.00, lambs from 100 to 150 weighing up to 140 pounds at \$7.85, and yearlings \$8.10. Demand for breeding stock is

heavy, sales today, \$7.00 to 18.50, and feeding ewes at \$6.75. Provisions have not gone far the sheepmen from every state.

Hogs sold steady to order buyers, who bought a good many light hogs at \$16.80 to \$11.00, and medium weights up to \$11.00. Provisions stopped at \$14.50 for old hogs, their purchases about 100, lower both of sales, \$19.50 to \$10.50. Top price at other Missouri river markets today is \$16.00, the strong demand from order buyers, on top of the weaker demand, raising the price here up. Receipts are liberal for the season, but demand continues extraordinary, and for the present the market looks safe.
